Dear Madam / Sir,

I am a dedicated Fourth year Engineering student studying at the German International University in Berlin (GIU Berlin), in the faculty of Media Engineering & Technology (MET), Department of Computer Science & Engineering (Sem 7).

I have an admiration for hard work, with complementary experience as a public speaker in national and international events.

I am dedicated to both personal and professional development. A reliable team member with positive and constructive communication style.

I am a dynamic individual that likes to work on objectives with different teams and learn via daily work challenges and working under pressure. I have a strong sense of team commitment, solid work ethics, an eagerness to learn and a passion for improvement.

I am looking for internship programs within your respectable organization to further improve my skills and increase my experience.

Please find hereafter my resume CV. Hope to get a favorable reply from your side, to cope well and fulfill any responsibilities you charge me with.

Sincerely,

Ahmed Gasser
